

三菱 Outlander 仪表盘 can 过滤器

Mitsubishi Outlander dashboard can filter

1: 记住原车的里程数，拆下仪表。

1: Remember the mileage of the original car,

remove the dashboard.

2:使用编程器来读取 S6J 来修改数据，更改到你想要的里程。

2: Use programmer to read S6J modification data, change to your desired mileage.

3: 告知售后在仪表盘上显示的准确的里程值和你希望它是多少公里。

3: Inform the after-sales the exact value of kilometers shown on dash and the kilometer you

want it to be.

4: 将售后发送的 24c16 数据写入过滤器 (24c16), 相应地短路 can 滤波开关(文件名上提到)。

4: Write 24c16 data sent after sale to the filter (24c16) , short-circuit the can filter switch accordingly (will be mention on file name).

5: 根据所提供的接线图焊接过滤器，焊接完成后将仪表盘安装到车上。

5: Solder the filter according to the wiring diagram provided, Install dash on to car after soldering is completed.

路上行驶 6 公里，一切都很正常。

Driving 6 km on the road, everything is normal.
